

Oakridge Landowners Association Sign Policy

It is the goal of the association to discourage temporary signs throughout our neighborhood in an effort to not distract from the beauty and landscaping of the area. It is realized that signs are at times helpful and necessary, but we would like to keep them to a minimum.

All temporary signs (political and signs advertising special events or festivals) must be approved by the president or his representatives.

The location of any sign must also be approved by the president or his representative in order not to interfere with landscaping maintenance.

Any sign placed in the neighborhood without permission is to be removed 10 days after notice is given to the sign's owner.

The size of temporary signs shall not exceed 32 square feet.

“For Sale” signs of real estate are permitted, but they shall be limited to the location of the owner's property and done in a professional manner.
